Women's Ara Collection

The collection opens with our iconic thong silhouette in a fresh range of seasonal solids, as well as new prints. Whether just a desire for maximizing comfort to go along with a general relaxed summer wardrobe or in need of that waterside casual piece of footwear, the Ara thong services all needs. Built with our patented Everywear<sup>®</sup> technology to maximize the comfort of wearing experience, this silhouette makes an easy choice for those looking to update their summer footwear wardrobe.

The Ara collection continues with the addition of the cross-band slide. While the thong is iconic, we also want to ensure the experience of wearing Everywear® is available to all who desire comfort, which may not include those desiring the thong silhouette. The cross-band slide is another easy, yet comfortable option that sits slightly longer on the foot, providing added stability to the wearer, but at the same time offering that same casual, coolness one finds essential for spring and summer.
